# UST Management & Compliance Assistance Seminar

August 17, 2010 Sheraton Gateway Hotel, Atlanta Airport

## Seminar Agenda

7:30-8:30 AM Check-in (Vendor Tables Open) - Continental Breakfast Provided

8:15 AM - Georgia EPD - UST Rules and Compliance Inspections - GA is changing it's UST Registration Requirements. *What are the most common discrepancies found during EPD Inspections?*

9:00 AM - Operator Training - Federal EPA rules require that states implement training for Level A, Level B and Level C Operators. GA is combining Levels A & B and is going to an exam only requirement initially. *What options does the operator have to prepare for taking and passing the exam? What are the deadlines and how much is it going to cost - dollar wise and also in employee time?* In Georgia, A/B Operators will be permitted to do the training for Level C Operators. Seminar attendees will receive a Training Kit that can be used to assist in their training of their Level C Operators.

9:45 AM - Federal EPA UST Rule Changes - For the first time since the UST rules were adopted with the 1998 deadline, EPA is issuing major rule revisions for underground storage tanks. *What are they and what are the effective dates?*

10:30 AM - Break (Vendor Tables Open)

11:00 AM - Alternative Fuel Issues - Georgia is one of the leaders in the nation as far as alternative fuel production facilities. *What changes are ahead for operators in Georgia?*

11:30 AM - Ethanol Conversions - Does your facility offer ethanol fuel blends? *What are the Do's and Don't's of Ethanol Conversions? What are the after conversion maintenance requirements?*

12:00 Noon Lunch (Included) - Vendor Tables Open

1:00 PM - Staying in Compliance - How to maintain your USTs! *What do you need to be doing as far as leak detection for the tanks and the piping? What should you be doing as far as your Automatic Tank Gauges? - - - as far as spill and overfill equipment? - - - as far as corrosion protection equipment?*

2:15 PM - Legal Issues for UST Owners/Operators  
*In this world of litigation, what should the UST owner be prepared for?*

2:45 PM Break - Vendor Tables Open

3:00 PM - The big move is on to retrofit credit card processing equipment on the dispensers to meet the new "Payment Card Industry (PCI)" requirements. *What are the issues and possible problems that operators should be aware of?*

3:30 PM - New Federal EPA Stage I Vapor Recovery Requirements - EPA now has rules that require all states to have Stage I Vapor Recovery for certain facilities. *How does the state of Georgia plan to implement and enforce this requirement?*

4:00 - 5:30 PM Stage II Vapor Recovery Training - This is a separate training session that requires an additional fee. Attendees of this session will receive a Stage II Training Certificate. GA Air Quality Rules require that operators in the 13 county Metropolitan Atlanta area shall ensure that at least one facility representative receives training and instruction in the operation and maintenance of the specific Stage II vapor recovery system in use at the facility. EPD Inspectors will be checking for this Training Certificate.

### *UST Equipment Vendors Table Top Displays*

This seminar will also include table top displays of Release Detection and other UST equipment/service providers. View the latest technology and/or talk to service providers as far as release detection methods and other seminar subjects, to include automatic tank gauges, SIR, piping line leak detectors, tank/line testing, monitoring wells, environmental consulting/remediation, UST & AST manufacturers, interstitial monitoring methods, spill and overfill protection devices, equipment that meets the new enhanced vapor recovery requirements, etc. Vendors may fax a request to 770-426-5233 or e-mail [billgreer@mindspring.com](mailto:billgreer@mindspring.com).
